

National School Lunch Program Update

October 1, 2010

Both sites have passed the initial review in order for BHCA, Inc. to recoup costs related to our lunch program. We should be awarded our final approval status within a month. There are a few minor computer reporting glitches that need to be worked out with the DOE, but otherwise we are in good standing. Bottom-line: minimally we can expect to recoup \$90,000 between the two campuses.

The Health and Wellness Policy was awarded final DOE approval this week. The Health and Wellness committee will begin meeting on a monthly basis in October.

Respectfully Submitted,

Tammy Graham
